Toronto, Ontario

Innovative and results-driven Software Engineer with a proven track record in building end-to-end software solutions using a versatile tech stack including Next.js, React, Express.js, Django, Firebase and more. With a strong focus on problem-solving and delivering impactful results, I am committed to leveraging my expertise to create solutions that drive organizational growth.

## EXPERIENCE

### Senior Software Developer

Finni Health (YC W23)

2023 - 2024

- Developed multiple features and integrations from discovery to implementation using React, Express.js and Firebase
- Collaborated closely with stakeholders, cross-functional team members, and clients to drive seamless operations and deliver exceptional service
- Established comprehensive GitHub CI pipelines for Cypress testing, integrating automation into the development process to enhance efficiency and reliability

### Co-Founder & CTO

Renotag

2021 - Present

- Led the recruitment and selection process, ensuring the team had the necessary skills and expertise to successfully deliver on project goals
- Built a loyal customer base, including Century21, Re/Max, Keller Williams, and Sutton Group
- Developed an end-to-end solution from system design to implementation using Next.js, Firebase, and FastAPI, enabling lightning-fast calculations for renovations
- Effectively utilized agile methodologies with Jira, enabling faster project delivery

### Senior Developer

Blanc

2021 - 2022

- Created a robust API with FastAPI, streamlining interactions with advanced translation ML models and pipelines in Python
- Managed and containerized various projects in React, Django, and FastAPI, ensuring seamless deployment and scalability
- Constructed multiple Telegram chatbots, fostering global communication for multi-lingual teams

### Python Developer

Canada Tax Reviews

2021 - 2021

- Enhanced process efficiency by seamlessly integrating Hubspot, EsignGenie, Five9, and Ring Central, optimizing workflows for smoother operations and reducing manual tasks
- Designed and developed automation systems tailored to the unique needs of a diverse user base of 300,000+, resulting in enhanced operational efficiency

### Frontend Web Dev

Rentsync

2020 - 2021

- Migrated 30+ reusable components for a component library from PHP to Vue.js
- Utilized UI Kit CSS Framework
- Managed the component library as one of two repository maintainers
- Helped onboard and train new staff

## EDUCATION

Software Engineering Immersive

Bitmaker/General Assembly

2019 - 2019

## EXPERTISE

- Typescript
- Python
- Next.js
- React
- Vue.js
- Django
- FastAPI
- Firebase
- PostgreSQL
- Elastic Search
- Docker
- Jest
- Cypress
- Hubspot
- Stripe
